

Street Stock Rules

This class was created to have fun and fun for the fans to watch (Total Carnage). If you come with a vehicle that is built any more than what is listed below you will not run.

1. Any 1980 and newer 2-wheel drive passenger car. No El Caminos
2. All vehicles must be stripped off all plastic, glass, headlights, taillights, air bags and anything else that could fall off onto the track during the show.
3. All vehicles must remain stock, ABSOLUTELY NO WELDING ANYWHERE.
4. Bumpers must remain stock, do not alter bumper in anyway. Factory bumper shocks must remain in factory location. You may remove rear bumpers and shocks. There is no welding to be done on bumpers.
5. Batteries may be left in stock location and spray foam may be added around battery. You may also move battery to passenger floor or seat. Please make sure battery is not moving.
6. Gas tanks must be moved inside but completely secured. After market tanks may be used.
7. All doors may be wired or chained in 6 places max per seam.
8. Trunks, hoods, tailgates, all may be wired or chained in 6 places total. Sheet metal to sheet metal only. Nothing to frame or bumpers. If you remove trunk or tailgate you lose that wire or chain.
9. Rear seat bar must be added. It may be welded to post. If you must add something to get it away from seat, please call. This is only to stop sides from coming in, not to help any other part of the vehicle.
10. Drivers' door only may have a plate welded to the outside or inside. This is for driver safety. Can't overlap seams more than 2"
11. DOT tires only. Stock wheels only. All wheel weights and studs must be removed. Only tubes and air are permitted inside of tires.
12. A simple Shifter may be moved to floor

These rules are cut and dry, you should not have to call to ask many questions on this class. If it does not say you can do it then that means YOU CANNOT do it. Quick and easy build.
